Zannatul Ferdous Shawon

Junior Web Developer | React & Next.js

Pabna, Bangladesh | 01308454166 | shawon4166@gmail.com

Portfolio | GitHub | LinkedIn

CAREER OBJECTIVE

CSE graduate passionate about building modern, responsive web applications from idea to deployment. Hands-on experience with React, Next.js, Node.js, and MongoDB, including a client-based business website. Currently developing a study-abroad consultancy platform. Looking for a web developer role where I can build meaningful products and learn every day

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React, Tailwind CSS, React Router, Next.js
- **Backend:** Node.js, Express.js, REST APIs
- **Databases & Authentication:** MongoDB, Firestore, Firebase
- **Tools & Platforms**: Git, GitHub, VS Code, HostGator, Vercel, Render, Thunder Client

PROFESSIONAL EXPERIENCE

Frontend Developer (Project-Based)

Digital Lord | March 2026 – Present

- Digital load IT Services Business Website: Developed a modern multi-page business website using HTML, Tailwind CSS, and JavaScript. Collaborated directly with the project owner to implement business requirements and build responsive user interfaces with interactive navigation, reusable UI components, and optimized user experience across multiple pages.
- UNIAD (Study-Abroad Consultancy Platform): Building the frontend using Next.js, React, Tailwind CSS, and JavaScript, currently setting up the core structure and component architecture before moving into full page development.

PROJECTS

Freelance Marketplace

Live Link | GitHub Repository

A responsive freelance task marketplace where clients post tasks and freelancers browse, view details, and place bids.

Key Features:

- Built with React, Vite, Tailwind CSS, DaisyUI, Node.js, Express.js, and MongoDB.
- Implemented Firebase Authentication (Email/Password and Google Sign-In) with protected routes.
- Developed complete task CRUD with a bidding system, deadline-sorted featured tasks, and a responsive dark/light theme UI.

Notice Board Management System

Live Link | GitHub Repository

A full-stack notice board for HR/Admin to publish and draft notices.

Key Features:

- Built with React, Vite, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Implemented notice creation with Publish and Save as Draft status handling.
- Developed a responsive dashboard and Draft Notices page with a collapsible sidebar.

JobTrack

Live Link | GitHub Repository

A job portal where users search jobs, filter by category, and view company and job details.

Key Features:

- Built with React, Vite, Tailwind CSS, React Router, Framer Motion, and DaisyUI.
- Implemented Firebase Authentication (Email/Password and Google) with protected routes and redirect-back-after-login.
- Developed job search, category filtering, and a job application modal with form validation.

EDUCATION

Bachelor of Science in Computer Science and Engineering **Jul 2021 - Jun 2025**

University of Asia Pacific

- CGPA - 3.79 / 4.00

LANGUAGES

- English - Moderate Proficiency
- Bangla - native
